**DISCLOSER / DISCLAIMER:**

Powder coating items must withstand a 400 degree cure temperature. You must remove all gaskets, seals, any plastic, etc. Extra charges will apply for parts in need of dismantling and/or assembly. Media blasting is available to remove old paint and finishes and is included in the above price. PURCHASER expressly acknowledges the existence of the pre-existing damage to parts described above and releases MauiPowder Works, LLC from any liability or loss in connection with such damage, including an exacerbation of the described damage. Cast aluminum and magnesium parts may experience out-gassing and/or bubbling in the powder coated finish. MauiPowder Works, LLC will take every precaution to avoid out-gassing, however MauiPowder Works, LLC cannot be held responsible for bubbling caused by porous substrates. MauiPowder Works, LLC does everything in their power to get your items prepped and coated in a timely fashion. To simplify job logistics we generally use a first in first out method. Turnaround times can change but we will do our best to give an accurate timeframe. MauiPowder Works, LLC is not responsible for any items that are damaged during the powder coating or ceramic coating process. The customer is responsible for all interior & exterior cleaning prior to placing items back in to use. Purchaser agrees to all information stated above. After completion, any item not picked up within a 30 day period will incur a weekly storage fee. Items not picked up within a 180 day period becomes the property of Maui Powder Works, LLC.

**PAYMENT POLICY/FINAL INVOICING:**

There is a 50% charge for RUSH jobs! Pre-payment for all special order powders & 50% deposit on orders over \$500. Final payment due upon completion. Most credit cards accepted. Business check is ok. Additional charges may apply. Final invoicing may include additional labor and materials that are otherwise unknown or undisclosed by the customer or may arise during the restoration process. Not responsible for any irregularities in the powder coat finish due to any unforeseen impurities, current state, or quality of metal as a consequence of its age, construction, or fabrication. The powder coat process as a protective finish only and does not warranty in any way the structural soundness or future performance of your metal part and/or mechanism.
