CAPABILITY STATEMENT

WHO WE ARE

If you're looking for proven industrial coatings that stand the test of time, then look to us. We provide the highest quality metal finishes to Hawaii's top Prime & Subprime Contractors.

WHAT WE DO

- Powder Coating
- Sandblasting
- Metal Restoration
- Corrosion Prevention
- Two-Coat Systems
- Ceramic Coating

HOW WE DO IT

- Friendly
- Experienced
- Responsive
- Reliable

CLIENTS/PARTNERS

Employing and partnering with people passionate about performance finishes.

Coating applications meet the high demands of corrosive environments & climate extremes, as well as EPA & LEED compliance. Unlike liquid paints & epoxies, powder coatings are more durable & chemically resistant yet contain no solvents; therefore do not emit pollution known as VOCs. From new construction to restoration we can help you navigate the process to make the best choices for getting your projects done. As Hawaii's "go to" source for powder coating our multiple ovens are ready to meet your immediate needs.
